Govt approves

I can well appreciate the diffidence of the Mun. Cl in the matter for in the ordinary circumstances the plant is not unfortunately in a proper state of repair or thoroughly efficient order. Whenever I have had any occasion to speak to the members of any Mun Cl on the matter I have invariably advised them to take over the entire management themselves as being more satisfactory in the long run but they cannot take them over unless municipal the plant are certified to be in an efficient state of repair & satisfactory working condition
